

## Rob Forster & Ray Aziz

Katrina Harvey-Winstanley with Rob Forster & Ray Aziz  
Summer 2003

When Rob joined Kleeneze back in 1993, he was married with two young children and working a full-time job, bringing home around £1,000 per month.

He was on the brink of bankruptcy, when a work colleague from the shipyard, where Rob had been a blacksmith, suggested he join Kleeneze.

In his first full 4 week period, he qualified as a Gold Distributor, and had already earned more than he was earning from his day job. Just 8 weeks later, he had helped two of his team members, (a car mechanic and an ex coal-miner), to also reach the Gold Distributor level, earning him the status of Bronze Executive Distributor and a huge pay increase.

Now 20 years on, the lad from County Durham, who left school without a single qualification, earns an average of £300,000 every year from his Kleeneze Business - earning in a day what he used to earn in a month!

Rob has also swapped his Council house for a 7 bedroom 400yr old Farm House in 14 acres, which includes a row of garages to house his extensive car collection, stables for their horses, quad bike track, (with bikes), and a helicopter pad for the helicopter he plans to buy.

When he first joined Kleeneze, and all the way through the early years, people, (friends & family members), told him it would never work and that he was wasting his time. He's so pleased he just kept his head down, got on with it, and IGNORED them - he recommends you do the same!
